Remembering
Your Pet

With Dignity
and Respect.

A Resting Place for Every Member of the Family.

For some people, the death of a pet impacts their lives in the same way the death of a family member does. The emotional bond between pets and their owners has never been stronger; therefore it is not surprising that pet parents face difficulty when dealing with the loss of a pet.

Roselawn Pet Cemetery was specifically designed to provide for private burial services, including single or multiple spaces available for both casketed or urn burial in a beautiful, park-like setting. With our caring staff, full of pet parents, you can be sure that your companion will be treated with dignity and respect, just as you have treated them.

Pet Burial Services

Single or multiple spaces available for both traditional or cremation burial in a peaceful setting dedicated exclusively to companion animals.

Graveside Ceremonies

Many families appreciate the opportunity to say good-bye to a beloved pet in a setting designed to allow their family and close friends to be with them. Using rituals can be a meaningful way to both honor a faithful companion and to begin the healing process. Our on-staff celebrant can help you create a unique ceremony recognizing the loss of your faithful friend.

Permanent Memorialization

We offer many options for permanent memorialization and remembrance. A variety of pet caskets, urns, and grave memorials are available. Keepsake items, including Buddies™ paw print jewelry, are also available.

*Pets come into our lives to teach us about love:
they depart to teach us about loss.*

Are There Other Options?

If you are having a difficult time deciding about disposition for your pet, you may consider cremation. Our partner, Butler Funeral Homes & Cremation Tribute Center, offers a separate crematory dedicated exclusively to pet cremation. Both private and communal cremation options are available, allowing your family to feel comfortable with the difficult decisions you must make. You can always trust the caring professionals at Butler Funeral Homes & Cremation Tribute Center to treat your pet with dignity and respect. Cremated remains may be taken into your care for home placement or interred at Roselawn Pet Cemetery.

For additional information about pet cremation options, please call (217) 544-4646.
